

## **Jan Gunnar Hoff / Mike Stern 2020 – Technical rider**

### **Band and crew**

Jan Gunnar Hoff: Piano/keys

Mike Stern: Guitar

Per Mathisen: Bass

Audun Kleive: Drums

Thor-Ivar Lund: Sound engineer, email: [tilund@gmail.com](mailto:tilund@gmail.com), mob: +47 90628711. For any question please make contact

### **General**

The band need approx three hours for stage preparing, system tuning and soundcheck.

Backline must be prepared and set up before the band arrives.

One local sound engineer with knowledge of the equipment must be available from get in to the end of concert.

### **PA**

Professional high quality sound system with subwoofers. Suited for the venue. Including delaysystem and front fills if needed.

Preference: D&B, L-Acoustics, Nexo, Alcons or similar

### **FOH**

We will most probably bring our own mixing console w/stagebox and microphones.

If not please provide a digital mixing console and microphones according to the input list.

CAT5/6 must be ready between stage and mixing position.

### **Monitor system**

6 x high quality wedges on 4 programs. (2 mono and 2 stereo) D&B, L-Acoustics, Nexo, AIS or similar.

Monitors is normally and preferably done from FOH. If the concert is at a venue with separate monitor mix please provide a qualified monitor engineer.

Piano/keys: 2 x monitors, stereo

Guitar: 1 x monitor

Bass: 1 x monitors,

Drums: 2 x monitors, stereo if possible

### **Lights**

The band does not bring their own lights or lighting technician. It is therefore important that you supply both a light-system, and an engineer. A local engineer must be available during the whole soundcheck for focusing and is also welcome to operate the lights during the concert.

## **Backline**

### **Piano / keys**

1 x Grand piano of high quality, tuned at concert day in standard concert pitch 440-442 hz., *Steinway is preferred.*

1 x Adjustable piano chair

1 x Nordstage II

1 x Fender amp

1 x Double keyboard stand

1 x Keyboardmixer for 4 x stereo ch. w/jack inputs

1 x Table for placing a laptop and a small mixer on.

### **Guitar**

3 x Fender Twin 65 Reissue Blackface. (Amps should be placed on top of their flight cases on the stage)

Must be in excellent condition and MUST be checked before delivery that the valves are good and there is no humming, scratching pots etc. Very important! (One amp is for spare use)

1 x Voltage transformer to 110V with 3 x US outlets. (For use with 2 x Yamaha SPX90 and some pedals. Total of approx 300 Watts)

1 x guitar stand

### **Bass**

1 x EBS TD 660 or EBS Fafner amp with 8 x 10 or 1 x 15 and 4 x 10 cabinet.

Alternative Ampeg SVT Classic amp with 8 x 10 or 1 x 15 and 4 x 10.

2 x Guitar stands

### **Drums**

Normal drumset with 4 toms and 2 snares. (one floor 16" or 18" if you have). High quality drums!

20" bassdrum is preferred. (18" can work, not 22"). With hole for mic on the front head.

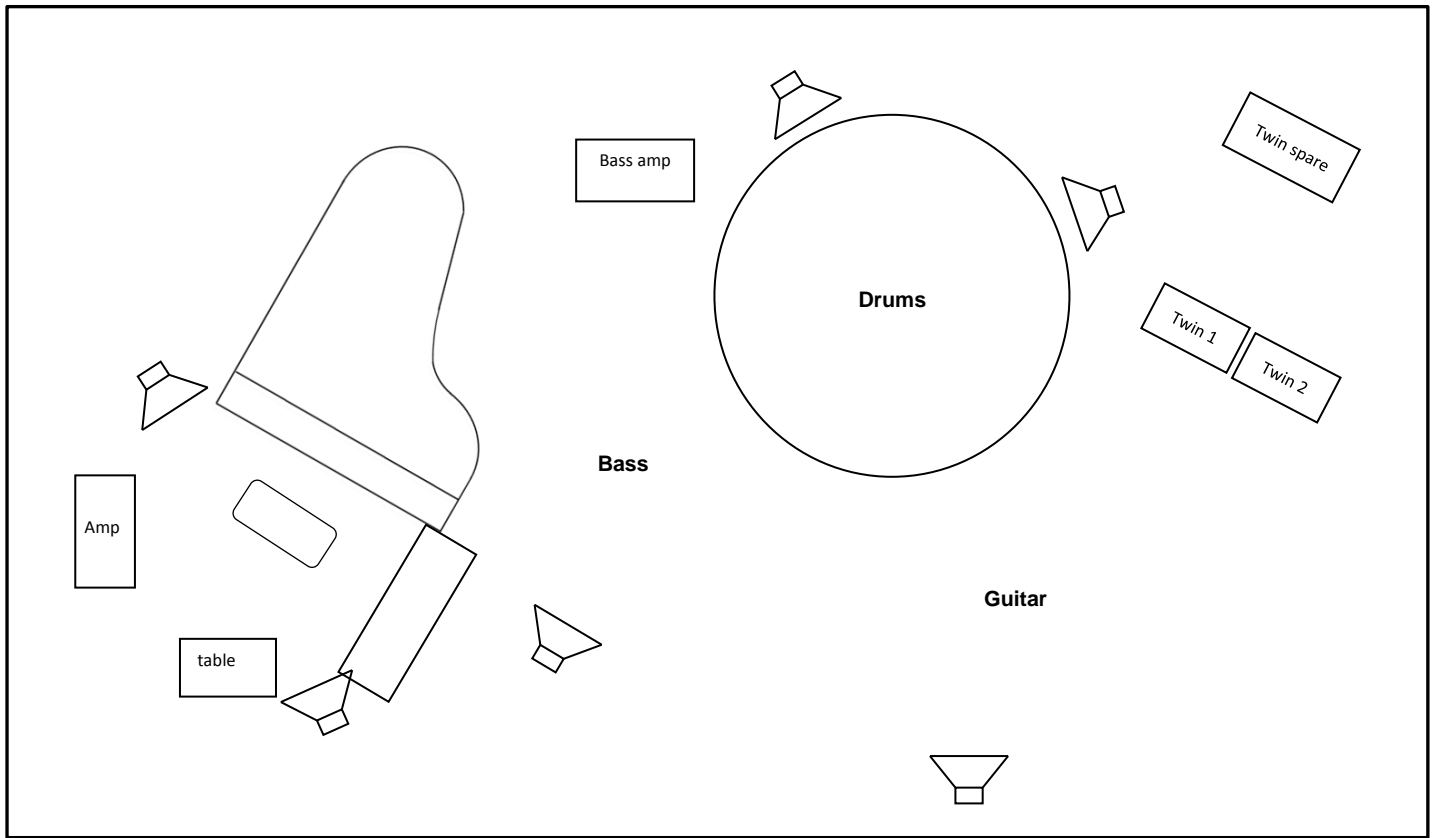

All drums including bassdrum must have normal white drum heads. Remo ambassador or sim.

No pinstripe, double heads, or other type of attenuated heads.

4 x cymbal stands, hi hat stand, 2 x snare stands, 2 x drum pedals, drum throne and a drum carpet.

Drummer brings cymbals.

### **4 x Music stands (solid type)**
